

15 June, 2021

Dear Fellow Professionals,

Subject: RTTP Listed Course: 創新項目管理技術的理論與應用

The recent Standish Group Report has highlighted a common issues of project management that 84% of completed projects were either not on time, or over budget, or deliver less than original specifications. An innovative solution to these problems has been developed by Dr. Goldratt, for which I have developed into the captioned 2-day workshop.

You would be pleased to know that the 2-day workshop entitled “**Theory and Application of the Innovative Project Management Techniques (創新項目管理技術的理論與應用)**” has been approved by the Reindustrialisation and Technology Training Programme (再工業化及科技培訓計劃, RTTP). The courses have been published in RTTP’s web site (<https://rttp.vtc.edu.hk/tc/application-and-reimbursement>) on 15 June, 2021 (列入再工業化及科技培訓計劃下的已登記公開課程名單內)。 Schedules and course nos. are as follows:

1. 23-24 June, 2021 0930 – 1730 Course No. SSI/2/2021 (RT)
(Course Confirmed)
2. 14-15 July, 2021 0930 – 1730 Course No. SSI/3/2021 (RT)
3. 18, 20 August, 2021 0930 – 1730 Course No. SSI/9/2021 (RT)

The first class on 23-24 June has been confirmed, so take this chance to become the first lot of graduates. The course fee is HK\$3,800/person, but it only costs you less than \$1,267 as 2/3 of this fee will be reimbursed by RTTP (rttp.vtc.edu.hk).

Upon completion of the course, you will:

1. Acquire fundamental knowledge on the theory and application of the innovative project management techniques – CCPM
2. Have the competence to pass the Basic Examination of CCPM organized by the Theory of Constraints International Certification

Organization (TOCICO)

3. A free copy of Excel software for managing simple projects
4. A trial licence of LYNX software for managing complex projects
5. A certificate in “Theory and Application of Innovative Project Management Techniques – CCPM”

A course leaflet and a copy of guidelines on how to apply together with an application form are enclosed for your convenience.

If your company wishes to customised a training program for your colleagues, and in particular, wants to have a trial deployment of this new technique and LYNX software in your company, we would be delighted to provide a coaching service. Please contact Dr. YK Chan on chairman@ssi.org.hk or tel 25812287 to work out a joint application of RTTP fund for this purpose.

Look forward to seeing you in the coming Workshop!

Ir. Dr. YK Chan,
Chairman
The Six Sigma Institute
