

Six Sigma

Black Belt Simulation Project Course for Professional Registration

Black Belt Simulation Project Course for Professional Registration

AIMS & OBJECTIVE

The model is a project-centred hands-on workshop with participants work on a simulated Six Sigma project. The aim of this model is to equip participants with abilities to undertake and lead Six Sigma project in any company.

On completion of the model, the participants will:

1. Acquire a hands-on experience on how to undertake and complete a simulated Six Sigma project.
2. Have a hands-on experience on using essential Six Sigma tools.
3. Able to plan a Six Sigma projects.
4. Able to present the Six Sigma Project.
5. Able to write Six Sigma project report.
6. Able to complete an individual project to meet Six Sigma Institute's requirements on professional registration of Six Sigma Black Belt

Learning Methods

As the course is customized for participants who have passed the SSI's Black Belt examination or equivalent, only a quick review on major tools will be conducted with cases and examples. The majority of time is to coach participants on how to complete their own project for the VIVA examination.

These are project-centred workshops that involve also group discussions and individual presentations, participants can be able to gain an experience for Six Sigma project presentation similar to the real working place.

Awards

Participants will complete their individual projects during the 4 days workshop. The project can be used in lieu of the real project with verified saving of HK\$500,000 for the VIVA examination. The VIVA examination of the individual project will be confirmed by the student and the tutor during the course.

Upon passing the VIVA examination, participants are able to be granted a Six Sigma Black Belt / Lean Black Belt Registration Certificate of Six Sigma Institute as a Registered Six Sigma Black Belt / Registered Lean Sigma Black Belt and entitled to use RSSBB / RLSBB title after their names.
