

CERTIFIED LEAN SPECIALIST PROGRAMME

Mastering Lean Plan and
Implementation

Organizer

Sponsor

Lean Programme

Lean is a generic process management philosophy derived from Toyota Production System. Lean considers eliminating or minimizing the expenditure of resources for any goal other than the creation of value for the end customer, which is the core idea of Lean is to maximize customer value by using minimize waste. Lean is a journey of enhances efficiency by continuously improving the workflow and smoothness of work. Lean has been widely applied in process improvement management in servicing and manufacturing industries.

Course Overview

This is one of 6 modules in the Certified Lean Specialist Course. The course aims to develop senior executives with the latest knowledge and know-hows of Lean management. Upon completion of all 6 modules, the lean Specialists should have an in-depth understanding of Lean techniques that can lead and train team members to carry out Lean transformation in their organizations. They should have the competency to deliver immediate and significant business results in their business operation.

Each individual module of the Lean Specialist course is self-contained. Participants can commence the course at any module. Participants who interested to particular skill can join a particular module. A Module Certificate will be granted upon their successful completion of the module and meet the module requirements.

Learning Methods

The courses will be conducted in two parts:

1. Comprises interactive lectures, videos, group exercises, group discussions and simulated games.
2. An optional study mission to actually see and feel how the theory and techniques are being practiced.

Who should attend?

1. Senior managers or executives who wish to or responsible to implement Lean management in the company.
2. High flyers who want to have a better opportunity in their carrier path.
3. Professionals who responsible for business process improvement.

Course Outline

Module 1: Strategic Lean Management (6-hour)

1.1	Lean Vision	1.6	Case Example
1.2	Identify Improvement Opportunities	1.7	Strategies to World-class Organization
1.3	The Latest Strategy of Lean Improvement	1.8	Comparison of Different Approaches
1.4	Case Study	1.9	Video Show
1.5	Why Lean + TOC	1.10	Managerial Decision Making for Lean Leaders

Module 2: Lean Transformation (9-hour)

2.1	Introduction	2.6	Identify areas of opportunity
2.2	Lean Transformation Process	2.7	Modify the existing process
2.3	Value Stream maps	2.8	Implement new Standard Work
2.4	Case Study	2.9	Case Examples
2.5	Evaluate the current situation	2.10	Video Show

Module 3: Flow Management and Kanban System (6-hour)

3.1	Concept of Flow Management	3.8	Training Multi-Process Workers
3.2	Ground Work and Preparation	3.9	Synchronization
3.3	One-piece Flow	3.10	Case Study An Automotive Electrical Parts Factory
3.4	Make Equipment Compact	3.11	The Kanban System
3.5	Create U-shaped Manufacturing Cells	3.12	Balance the Flow VS Balance the Load
3.6	Video Show		
3.7	Multi-process Operations		

Module 4: Wastes Elimination and Capacity Exploitation (6-hour)

4.1	Why Wastes Occur?	4.6	Case Examples
4.2	7 Types of Wastes	4.7	5S' s and Its Deployment
4.3	How to Identify Wastes	4.8	Capacity Exploitation
4.4	How to Eliminate Wastes	4.9	Increase Capacity by Reducing Variations
4.5	Secrets for Not to Creating Wastes	4.10	Increase Profit by Rationalize Product Portfolio

Module 5: Leveling Techniques and Balance Flow Scheduling (6-hour)

5.1	What is Level Production or Level Service	5.6	Video Show
5.2	Lean Scheduling	5.7	The Poke-Yoke System
5.3	Leveling Techniques	5.8	Video Show
5.4	Balanced Flow Scheduling	5.9	The Audit List
5.5	Procedures for Changeover Improvement	5.10	Examples

Module 6: Operations Improvement Techniques (6-hour)

6.1	Overview of Standard Operations	6.6	Total Productive Maintenance, TPM
6.2	How to Establish Standard Operations	6.7	Strategies for Zero Injury and Zero Accidents
6.3	Case Study	6.8	Examples
6.4	How to Improve Operations	6.9	A New Way for Production Management — Managing Time Buffer
6.5	Steps toward Jidoka	6.10	A Case Study of Transfer Batch

Module 7: Lean Study Visit (Optional, all detail to be advised)
